Dear Parents:
Buenos Dias, and Welcome to the 2017-2018 Spanish Language After School Program, offered by **Easy Spanish**, for Kindergarten through 8th grade.

Why Your Children Need a Second Language?

According to recent studies, learning a second language at an early age enriches mental development in children. Children who receive even small amounts of second language instructions are better at solving complex problems. Young children learn a second language easily, and speak it naturally without any accent, compared with learning later when it becomes hard work.

Why Spanish?

Spanish has become one of the most important second languages in the United States and especially in California. Spanish has a rich historical heritage; it is a Latin language with close ties to many other useful languages. It is the spoken language in many beautiful and exotic countries throughout the World, I.E: Spain, Mexico, the Caribbean, and South America.

What is Easy Spanish?

Easy Spanish is a Spanish language study program developed specifically for children by Viviana Marchevsky, a native speaker with an extensive background in education and child development. Through a variety of exciting games and interactive activities the children develop vocabulary and grammar skills in Spanish. No boring or mechanical drills and memorizing words, **and homework is optional.** Viviana uses only native speaking experienced instructors, whom she has trained in the **Easy Spanish Teaching System.**
